

Our Vision is to create a world in which electrical energy is available to every individual, regardless of their geographic location, financial means or technological capabilities

Apollo Power develops innovative technology solutions and products in the solar energy field. Among our developments are flexible solar films, designed to transform any surface under the sun to an energy production source.

WHY US?

MODULAR - SCALE UP WITH

APOLLO POWER! You can chain systems to enlarge power capacity

OPEN SYSTEM

Changeable battery, up to 1280W, to suit your needs

Universal inputs - use the solar panel you already own

Variety of appliances - With multiple outputs you can turn on the light, charge your phone, watch T.V. and even cook, all at the same time

HIGH QUALITY

designed to withstand any weather (IP65) and planned to last longer

WORRY-FREE

Made with the best components, so you can stay calm

VISIBLE

Our LCD screen and battery status LED keep you updated at all time

WHAT DO YOU GET?

BATTERY

LiFePO₄ 12V 20-100Ah.
The best battery for solar systems.
Designed to last longer

THE BRAIN

We designed our PCB to extend battery life. Our PCB allows you to charge your system from any solar panel, wall outlet or from another system

INPUTS

You can connect 3 solar panels with up to 300W together, to shorten the charging time, or connect to a wall outlet to use as a backup system

OUTPUTS

10 DC Outputs Sockets - 3 sockets for lighting and T.V. 4xUSB, 3xCar Sockets

FINANCE

Supports different PAYG methods

PRODUCT WARRANTY

36 months on the system only

GENERATING ELECTRICITY

SOLAR PORTABLE GENERATOR FEATURES

High Quality designed to withstand any weather (IP65) and planned to last longer

Open System Changeable battery, up to 1280W, to suit your needs

Universal inputs use the solar panel you already own, and connect up to 3 panels at a total input of 300W

Modular Scale up with Apollo battery power! You can chain systems to enlarge power capacity

GENERATING VALUE

While your Apollo's system is waiting for your next adventure or a power outage, plug it to a solar panel or to a wall outlet and the system will sale processing power, to earn you money.

**IT IS EASY TO USE,
JUST PLUG AND EARN.**

WHAT ELSE?

BATTERY
LiFePO₄, 20-100A

INPUTS
Connect 3 solar panels up to 300w
Or connect to wal outlet

OUTPUTS
4xUSB
3xCar Sockets
3 DC sockets for lighting

💰 ZERO ANNUAL EXPENSES

🔧 MAINTENANCE FREE

🌱 HEALTHY AND SAFE

🔇 NOISE FREE

⚙️ 3 YEARS WARRANTY
