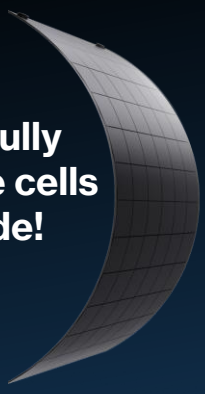
APOLLO



Our fully flexible cells inside!

150W Foldable Unit

Foldable Solar Solutions

R20C04201

Cutting – edge Israeli technology

Durable and Reliable
Patented cell technology with enhanced micro-cracks tolerant

Ultra lightweight
only 2.5 Kg / 5.51 lbs

Over 10 Years
of research and development

APOLLO

150W Foldable Unit

Foldable Solar Solutions

R20C04201

Apollo delivers cutting-edge solar energy solutions, turning any surface into a reliable electricity source. Our foldable, lightweight, and modular solar panels are designed for high mobility and extended dwell time, making them ideal for off-grid, and mobile applications. Compact enough to fit in a backpack, they can be used independently or connected to create a larger generator, ensuring energy anywhere.

Deployed System Electrical Information

Pmpp (Wp)	150
Vmpp (V)	18.25
Impp (A)	8.2
Voc (V)	23.8
Isc (A)	8.6
Weight (Kg/lbs)	2.5 / 5.5
Deployed Length (cm/inch)	52.8 / 20.78
Folded Width (cm/inch)	35.5 / 13.18
